¹ Savings Advisor is for general informational purposes only and is not intended to take the place of your physician or other healthcare professionals. It is a resource designed to help you optimize your pharmacy benefit. Not all drugs will be found in this tool. The alternatives presented do not take into account possible drug interactions, and there may be other alternatives than those listed. No changes to your medication should be made without physician approval. A licensed physician should be consulted for diagnosis and treatment of all medical conditions.

² The quantity and days' supply above were used to calculate an estimated price. Please note that your actual quantity and/or days' supply may vary. State and federal dispensing guidelines or how the medication is packaged may impact the quantity and/or days' supply you can receive. Sales tax, when applicable, is not included in this pricing.

Your annual savings is calculated using the cost you would pay for the prescription today, whether in retail or mail, with that daily cost being multiplied by 365 days to calculate your yearly savings. Your savings does not take into account deductibles, benefit caps, or any other plan limitations.

This information is intended to serve as a general overview of this pharmacy benefit program. Please note that the pricing and coverage terms of this prescription benefit are subject to change. Individual retail pricing may vary. Please consult your benefit plan for complete information.
